Additional Terms, Conditions and Costs – estimated as of 05/23/2019

- 1. Typical Loan Costs** (NOT including Bank Origination Fee of 2.0% of which **2.0%** **is paid to Broker without Disclosure up to \$160,000 Maximum**):
 - \$1,500 to \$4,500 "Good-Faith" Application Fee (**Mostly** - Refundable/Varies by Loan Amount). (SBA and any Construction Lending have different fee schedules – see LOI).
 - \$1,800 - Estimated Bank Closing/Document Fees (due at closing).
 - \$7,000+/- Payable to Bank AFTER Bank's Initial Interest in Approval for: Summary Appraisal; Environmental Survey; and Structural Inspection.
 - (\$??) for Escrow, Title and/or Abstract Fees (varies by State/Location).
- 2. Bank charges 2.0% as "Bank Origination" fee** at closing. **FULL 2.0% is for YOU/your company** which is NOT disclosed, NO rebate nor YSP. You can charge up to **1.0%** more "up-front" in a separate agreement with your borrower to be executed at closing (**1st Lien only**).
- 3. Rates** are based on four different indices – W.S.J. Prime Rate for the 3-Month ("Floating Rate"), 3-Year Interbank-Swap for the 3-Year Fixed, 5-Year, 7-Year and 10-Year Interbank-Swap for the 5-Year Fixed, 7-Year Fixed and 10-Year Fixed. Most Own.Occ. Loans are "Full-Term" Loans with NO Balloons or Call Features (except for default). N.O.O./Investor Loans are Amortized for 20-25 years with a 10 to 20 yr. Term. **(25-Year Amortization available for newer Multi-Use Properties)**
Each Loan would "re-set" the Interest Rate every 3, 36, 60, 84 or 120 months based on the original "fixed rate" term. The new interest rate would be calculated using the same index (see above) and the original Bank Margin ("mark-up") as the initial period.
If the underlying index increases, the new rate (and payment) would be higher. **Rate "add-ons"** may be required for some refinance transactions, Construction Deals and Loan Amounts below \$500,000. **Rate DEDUCTION** for 1st Lien Loan Amounts over \$2,500,000 and \$5,000,000.
- 4. Prepayment Penalty** for the Floating, 3-Year & 5-Year adjustment terms is a declining balance of 5% in the 1st year down to 1% in the 5th year (5%-4%-3%-2%-1%). The 7-Year Fixed-Rate has a declining prepayment penalty for 7 years (7-6-5-4-3-2-1%). 10-Year Fixed-Rate has a prepayment penalty fixed at 5% of the UN-paid Balance for 6 Years; declining from 4% to 1% in Years 7 through 10. For all Loans the Borrower may pay up to 20% of the ORIGINAL Loan Amount in any year without penalty.
The Loan can be assumed (new borrower must be qualified) for 1.5% of the Unpaid Loan Balance. The Loan Amount can be increased IF the Income Value of the Property Increases (at sale or assumption or with current owner) for 2.0% Origination Fee on the Incremental Balance Increase.
(Prepayment Penalty can be Significantly Reduced on a "Special-Bid-Basis" for Higher-Quality (Property, Tenants, Guarantors) Multi-Use loan requests ONLY. \$2,500,000 to \$8,000,000 Loan Amount with NO Broker Fee Paid by Bank/Lender on these requests ONLY. Call to Review.)
